We create places

We have been operating in the real estate market **continuously for more than 30 years**, actively participating in the conscious and responsible creation of the urban landscape.

The consequence of our ideology was to create a Group that primarily combines the **creativity**, knowledge and experience of professionals: architects, designers, engineers and management team.

Our Group combines all the elements necessary to **create Places**. The challenge is not to design or build a facility, but to create a space for people to function in it and find pleasure in it. For us, the implementation of investments is precisely the **creation of Places**.

A broad view of the investment process gives us an advantage in the market, in the form of conscious design and implementation of investments based on current market and business models.

We comprehensively implement the entire investment process - from the acquisition of land to the handover of the property for use.

The advantage of our Group is our knowledge of all the problems and difficulties faced by Investors. Thanks to this, we are able to efficiently face challenges and **find solutions** at every stage of the investment process.

Being an **Investor**, we are **constantly seeking business partners and lands for new investments**.

We create places
whose value continues to grow

Management Board

Grzegorz Woźniak
President of the Management Board

Graduate of the Faculty of Computer Science at the AGH University of Science and Technology in Cracow. Long-time manager in international corporations. Has extensive experience in managing large investment portfolios. Specialist in construction engineering and in managing and supervising development projects. Since 2017, he has been the President of the Management Board of the development company Quelle Locum, now Q3D Group. The main pillar of his business activity is sales, finance, legal and IT aspects. He is responsible for cooperation with investment funds. For years he has been commenting on real estate issues for national media. His passions are traveling, basketball, tennis, as well as new technologies and programming.

Paweł Koperski
Vice - President of the Management Board

Graduate of the Faculty of Architecture at the Cracow University of Technology. Participant in the international TEMPUS programme "Polycentrism of Cities" in 1994-1996. Academic lecturer at the Cracow University of Technology. Member of SARP and MPOIA. Co-founder of the companies 3D Group and later Q3D Group and Pro Architektura Foundation. Creator and co-creator of more than 170 architectural designs. Member of international design teams. Author of numerous publications under the international TEMPUS program and the magazine "Architecture and Business". His statements regularly appear in national media and trade magazines. In addition to architecture, his greatest passions are travel, photography and wine.

Witold Padlewski
Vice - President of the Management Board

Graduate of the Faculty of Architecture at the Cracow University of Technology. A supporter of minimalist forms and spaces. Constantly seeking sophistication, individuality and uniqueness. Member of SARP and MPOIA and SBDiM. Co-founder of the 3D Group companies and later Q3D Group. Creator and co-creator of more than 170 architectural designs. Winner of many awards including the Golden Falcons for the creative nature of the architecture and the standard of the Garden Lane residential project, the Crystal Brick for the "SkyRes Warszawska" project, and the Grand Prix for "Construction of the Year of Podkarpacie" for the "SkyRes Mieszkania" project. Passionate about alpine skiing, skitouring, road biking and classical music.

Our history

1994

The first architectural company (3D Architects) is established.

2005

3D Investments company is established.

2010

3D Architects merges with 3D Investments, creating 3D Group.

2014

Construction company Q Contract is established.

2016

The Group moves to new headquarters located in Zwierzyniec, Cracow.

2017

Development company Quelle Locum joins the structures of Group 3D. From this moment on, we increase the scale and synergy of operations: we design, implement and manage construction investments.

2022

New visual identity, naming, implementation of a new marketing strategy. Q3D Group is established.

We create places
that harmonize with their surroundings

Get to know our companies

We are responsible for the **comprehensive implementation** of residential, commercial and public utility investments. We provide services to institutional investors, landowners and financial investors, among others. Thanks to the shared vision and experience of three complementary companies, our Customers receive a **coherent, well-thought-out and profitable product**.

Concept

We create places

The core of the company is a creative and committed team of experienced designers who know exactly how to combine creative and conceptual thinking with procedural realities and feasibility. We are able to adapt to the individual expectations of our Customer, designing functional, aesthetic and resistant to the passage of time Places. Continuous contact with a partner contractor company gives us a competitive advantage in the form of in-depth knowledge of current implementation issues.

Contract

We create places

We have many years of experience in the implementation of residential and commercial projects. We know that the priority for Investors is to complete construction according to the assumed schedule. Our objective is to build our own brand through high work culture, workmanship and fault-free solutions. Our strength is proven people and close cooperation with designers within the Group. This approach gives us the ability to introduce well-considered optimizations already during implementation.

Locum

We create places

Having designers and contractors in the Group, we manage the investment process and sales completion comprehensively, taking due care of the budget of the project and the Investor's finances. Operating in the Group, we use a variety of solutions, draw conclusions and optimize the costs of further investments. We know the needs of the market and the expectations of Customers. Thanks to this we are able to define the appropriate nature of the expected investment, selected appropriately to the context of the created Place.

Group

We create places

We have full control over the entire investment process

Concept

We design

We place great emphasis on the quality of architecture and the space we create, setting standards and building prestige for our Customers.

Contract

We build

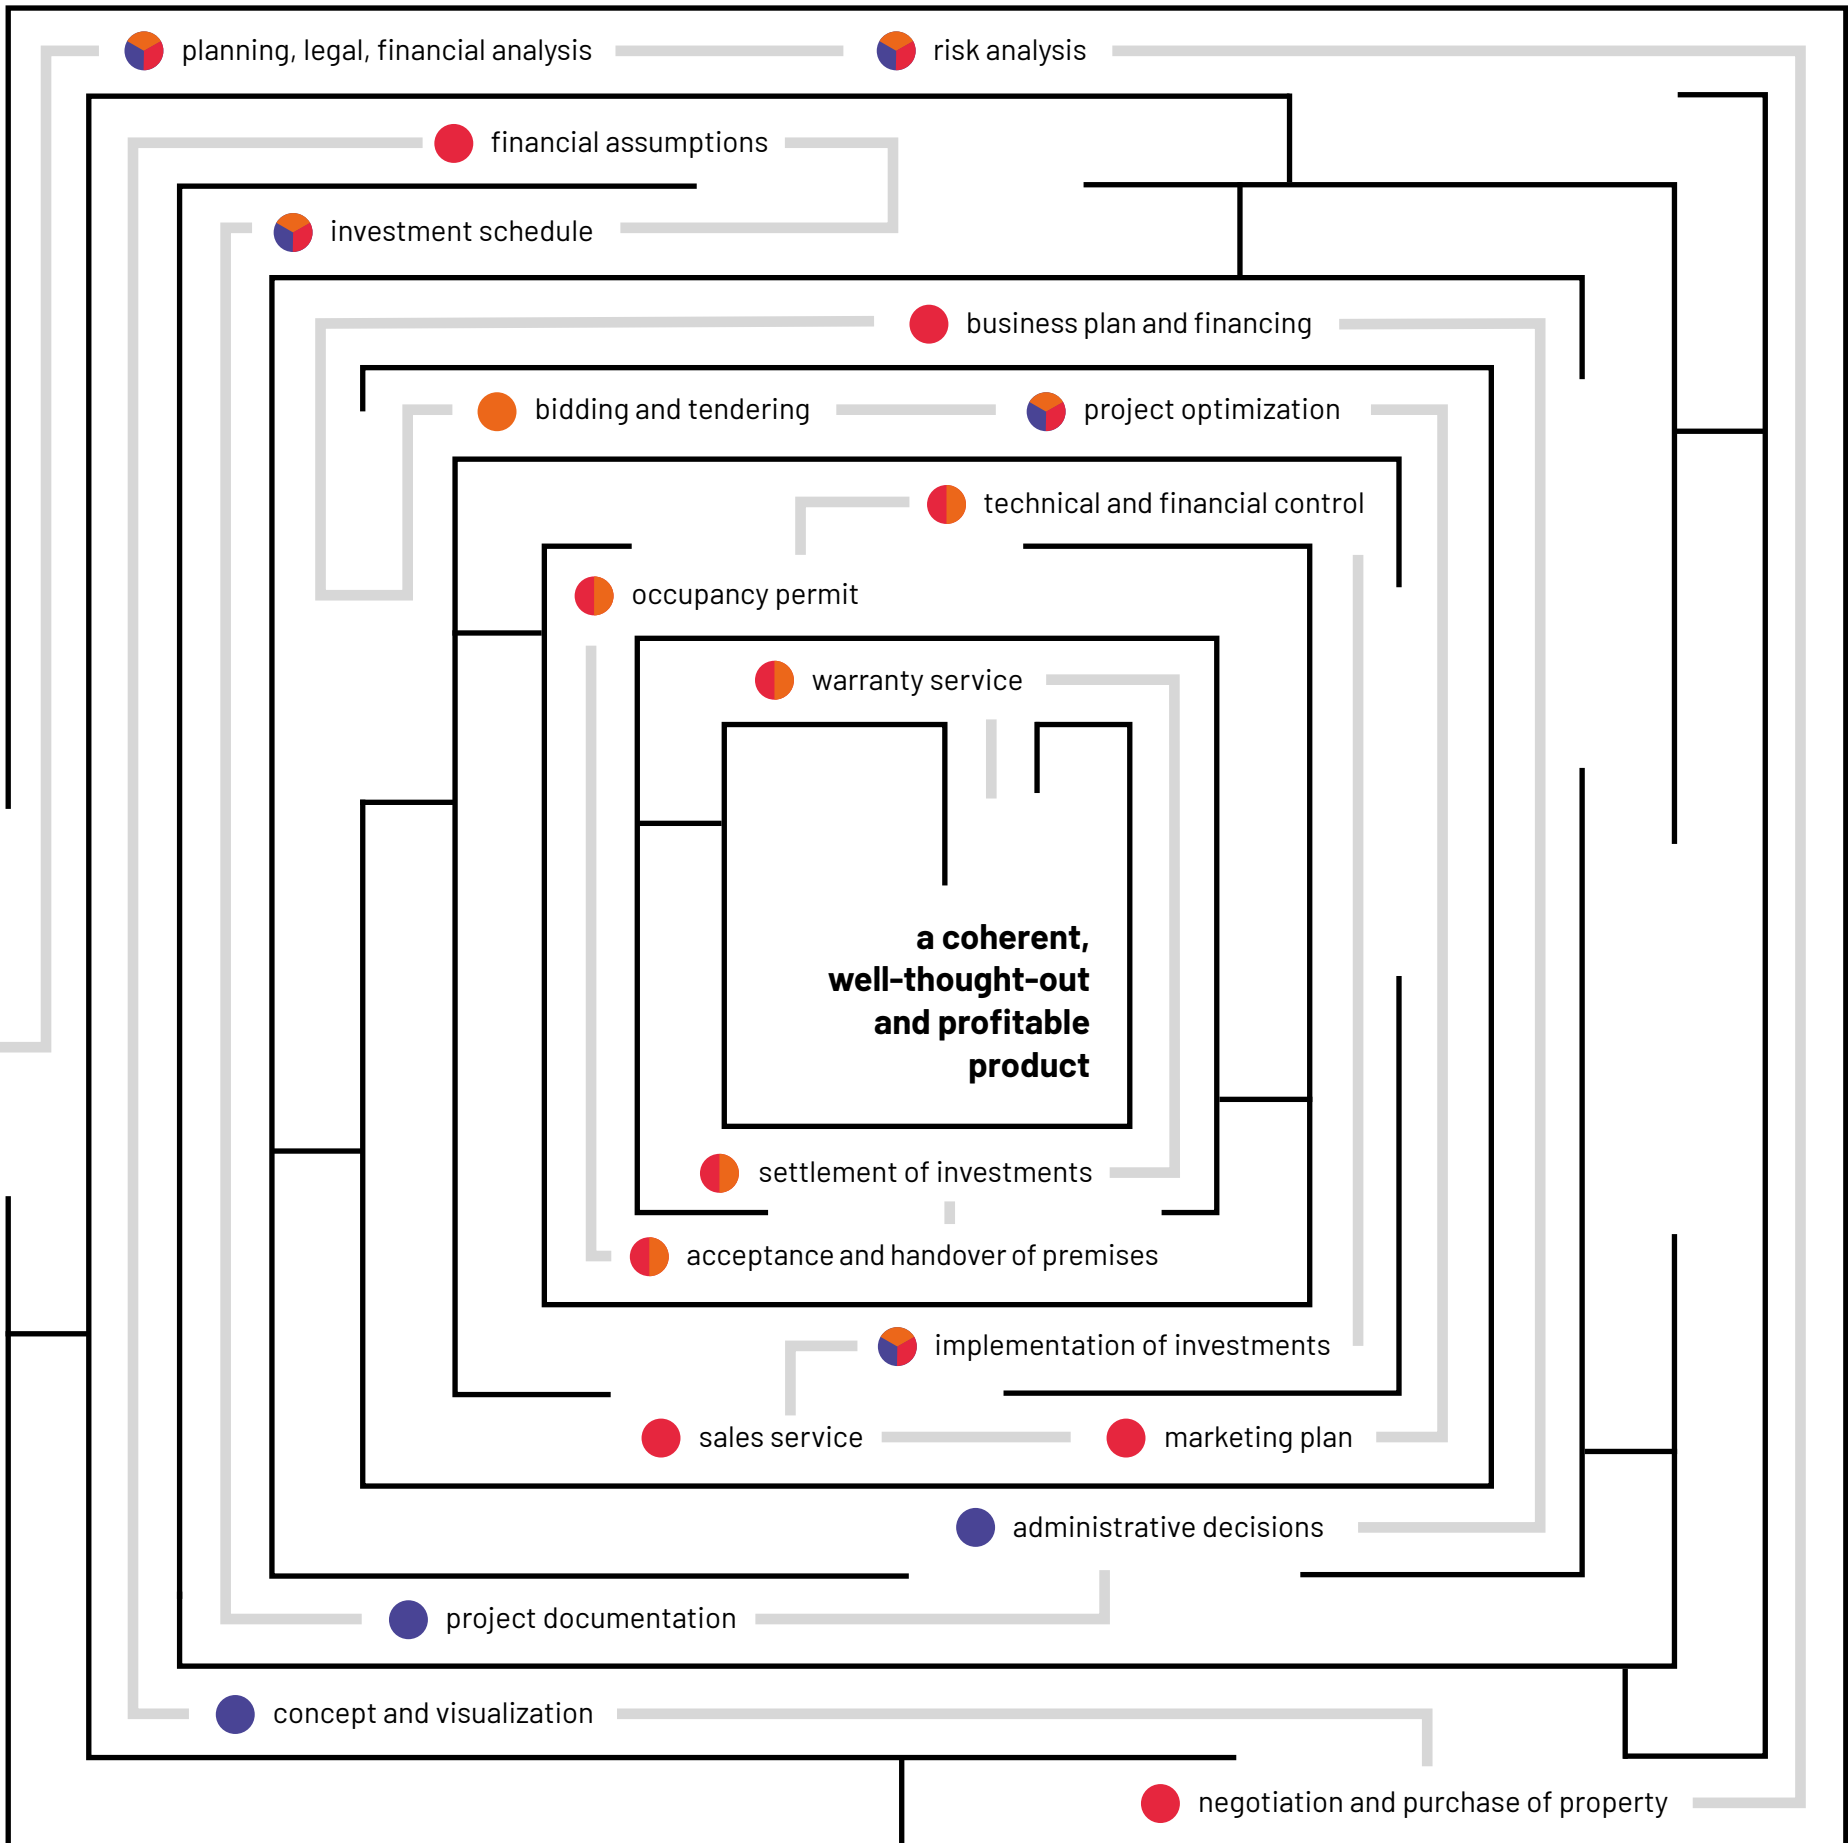

We implement cubature facilities: residential buildings, hotels and office buildings. We meet the expectations of both the Investor and the recipients of the investment.

Locum

We deliver

We comprehensively manage the implementation of projects, from the initial consultation to the handover of the completed facility. We take responsibility for the entire project, taking care of the Investors' finances.

Selected projects

Greendustry

Location Cracow, Romanowicz Street

About the investment

The Greendustry apartment buildings on Romanowicz Street in Cracow are the latest investment by Q3D Group.

The quarter development in the center of Cracow's Zabłocie refers to the industrial character of the district. The building perfectly captures the spirit of a fashionable part of the city, while introducing a new quality in a previously undeveloped urban space.

Consistent and well-thought-out design assumptions and precise workmanship, produced an excellent result. The emphasis on a high standard of materials and aesthetics has resulted in each element creates a detail of the building.

In order to provide additional functional value to the space, shaded rest areas and an intimate recreational terrace for residents are provided. Throughout the courtyard, a flower garden has been designed with minimal pathways, which gives it not only an aesthetic, but also a functional character. It is worth to mention that the recreation area and playground have been deliberately moved outside the inner courtyards, which ensures maximum comfort for residents.

Park Leśny Bronowice

Location

Cracow, Stary Dąb Street

About the investment

It is a vast complex located on an area of about 4 hectares consisting of 21 multi-family buildings. The idea of this place was to take advantage of the forest neighborhood and optimal development of the investment area, while maintaining the right scale and intimate nature of the development.

The housing estate is located in the vicinity of the forest on Pasternik Hill and Tencyński Landscape Park. The advantage of the investment is the location and the unique surroundings of nature and recreational areas.

Low-rise buildings have been adapted to diversified in terms of altitude terrain and the suburban character of the surroundings. This allowed us to create extensive green zones, which are an advantage of the investment. We have created a place in the city, providing an opportunity to catch a breath from its bustle.

★★★★
PERFECT HOTEL

Perfect Hotel

Location Cracow, Kupa Street

About the investment A modern, boutique hotel with a four-star standard, located in the heart of Cracow's Kazimierz district. The unique atmosphere of the district, the open sight of the historic Isaac Synagogue determined the choice of this location for the investment. The building is distinguished by its contemporary architecture and the use of modern finishing materials. Brick pilasters and details of the facade subtly refer to the historic development of Szeroka Street.

Development area 267 sqm

Usable area 900 sqm

Number of rooms 23

Investment value PLN 27 million

Project 2013

Implementation 2015-2018

Villa Melancholia

Location	Cracow, Zielony Most Street
About the investment	<p>This is a unique place with a strong historical affiliation with Cracow's Bronowice Małe district. Situated on a hilly terrain in a ravine shaded by old trees and topped by an old chapel, it recalls the times of Young Poland and the Wyspianski's Wedding.</p> <p>Designing a building in such an obliging tissue, keeping the character of the place and at the same time making maximum use of the investment possibilities of the plot of land - required many years of experience and great professional intuition.</p> <p>Particular importance here is the excellent location and individual approach to the project, which made the building a reference for modern architecture inscribed in historical development.</p>
Development area	1 402 sqm
Usable area	1 525 sqm
Number of premises (units)	20
Investment value	PLN 25 million
Project	2006
Implementation	2009

Perła Prądnika

Location

Cracow, Siewna Street

About the investment

The project consists of two multi-family residential buildings, located in a popular and well-connected part of Cracow. The buildings inscribed in the context of the surroundings, which is the space of old and new housing estates.

The creation of new housing estate enclaves generates the necessity to provide the necessary infrastructure, hence commercial premises were provided at the ground floor level. They have been used to create an internal green courtyard intended exclusively for residents. The way to "cut off" from pedestrians, was to design it above the ground floor level.

Development area

5 485 sqm

Usable area

7 593 sqm

Number of buildings

Number of premises (units)

151

Investment value

PLN 63 million

Project

2011

Implementation

Investment implemented in stages in 2012-2017.

Apartamenty Z Ogrodu

Location

Cracow, Jesionowa Street

About the investment

An intimate residential complex located in the prestigious Wola Justowska, on the place of the former "Galeria Ogród". The project consists of three low-rise buildings topped by green terraces, accessible to residents.

The designer's idea was to go beyond the established notion of the apartment block and create a multifamily friendly space, with an intimate place for each resident.

Customers were offered high-quality architecture with refined details and functional layout of apartments, with precisely integrated common spaces and an interior garden.

This investment is an excellent example of conscious design. "Sinking" the buildings into the orderly and carefully planned greenery, ensures a sense of calmness and a breather from the urban bustle, all in the heart of the city.

Development area 5 640 sqm

Usable area 3 611 sqm

Number of buildings 3

Number of premises (units) 56

Investment value PLN 61 million
